Wall and pole mount cabinets are ideal for compact installations where space is limited, providing secure and efficient housing for your equipment and/or batteries.

The 215kWh-2MWh Container Energy Storage System and industrial and commercial energy storage battery cabinets are high-capacity, scalable Battery Energy Storage Systems (BESS) designed to ...

Save on labor, easy installation: Single cabinet installation is simple, and cabinet installation is convenient, quickly supporting grid connection and saving on labor costs.

Modular design with up to 2MW in 200kWh increments. Discover the SRC-2000, an advanced battery storage solution with up to 2000 kWh. Ideal for energy optimization and critical infrastructure support.

Dedicated and redundant modules (power, intelligence, battery and bypass) are engineered into a design that is easily and efficiently serviceable. With its ultra-modular, scalable design, the Symmetra ...

A scalable, flexible UPS with optimal energy efficiency and easy monitoring, you can quickly deploy the Eaton 9PXM in your server room as a tower or rack-mount UPS.

Discover how the BlueRack(TM) 250 power battery cabinet is a safe, high-powered solution you can count on.

Our battery storage system provides seamless integration with BMS and EMS, which offers comprehensive control, monitoring, and efficient operation of the entire energy storage configuration, ...

2MW battery energy storage system is modular designed, and can be quickly installed. The BESS container can provide you with stable and reliable energy in the long run.

2MW Modular Battery Cabinet for Network Server Room

This flexible, modular design allows for installation in areas where it would not be practical or even possible to use a full-size, one-piece rack; such as rooftops, COWs/COLTs, small shelters, or other ...
