We partner with you to deploy energy storage systems that not only address today's operational challenges but also lay the foundation for sustainable and profitable energy systems of the future.

40.8KWH Energy Storage System (380V) lithium ion battery storage cabinet has safe and reliable battery protection, balanced management, status monitoring, operation control, and a variety of ...

Its core advantages lie in its outstanding safety performance, broad environmental adaptability, and flexible, easy maintenance. Certified by internationally recognized authorities, it plays a key role in ...

Anern liquid cooling energy storage system cabinet is an energy storage device based on 100kw lithium battery. C& I energy storage system. High energy density, high charging and discharging power, long ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Building fully integrated regional grids, long-distance transmission lines and grid-scale storage technologies is imperative for Southeast Asia so that countries can start capitalising on their ...

Most of our sales and technical team has rich lithium battery experiences of 10-15 years.

As a leader in solid-state battery technology, the company constantly explores and innovates, achieving independent scientific research and innovative results Abundant.

Single cluster fine control, no parallel on DC side. 15 years life, 8,000 cycles.

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in ...
