DPA 60 cabinet is 20-60kW with internal batteries. DPA 120 cabinet is 20-120kW with external battery cabinets.

Explore what Edge computing is and how it (and the right IT enclosure system) can handle scalability, security, protection, disruptors, and standalone solutions.

Our solutions include modular, scalable, and IP-rated cabinets built from mild steel or stainless steel, engineered to manage cable density, airflow, and thermal loads while maintaining absolute safety ...

Wall-mounted cabinets provide networking/server capacity when floor-space isn't an option in a variety of indoor and outdoor environments, designed with both installation and daily-use in mind

The Eaton® 93PM UPS combines high efficiency and reliability with an eye-catching design. A space-saving, scalable and flexible device that's as easy to deploy as it is to manage; it's the perfect three ...

Our micro data center model series caters to controlled, semi-controlled, and uncontrolled environments and can be deployed with three flexible management options, including monitoring and dispatch for ...

You can expand its capacity by combining 50/60 kW modules in a scalable, building block fashion to deliver 600 kW (N+1) from a single 42U rack enclosure. This powerful configuration delivers higher ...

Its flexible slot architecture and compact footprint make it ideal for global data centers, edge computing sites, and industrial automation systems needing efficient, dependable backup power.

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

60kW Industrial Cabinet for Edge Computing

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.
