Double-Glass Construction: Enhances durability and resistance to environmental factors like snow and hail.
Bifacial Design: Captures more sunlight from both sides, increasing overall power generation. ...

Remark: Electrical data in this catalog do not refer to a single module and they are not part of the offer. They only serve for comparison among different module types.

Based on 210mm silicon wafer and 132 half-cut mono-crystalline PERC cell, the Evo 6 Series photovoltaic panels comes with several innovative design features allowing higher output power up ...

STELLAR 1N+72 Dual-Glass 635W-660W of 24.4% PV efficiency delivers higher power, better temperature restriction, lower LCOE, O& M cost and decay rate.

The Trina Solar TSM-DEG21C.20-660 is a high-power bifacial dual-glass module using monocrystalline high-density-interconnect cells, delivering 660 Wp with a module efficiency of 21.2%; it measures ...

N-Type Double Glass Bifacial Solar Module 635~660 Watt TOPCon Innovation Composite Finger Technology Same dimension 40W higher,Module power up to 660W Module efficiency up to 24.43% ...

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. The ...

Solar panel For use on commercial and industrial roofs and in large-scale PV projects, 66 cells, 182/210mm, N-Type TOPCon, Double Glass, Bifacial

Tiger Neo Bifacial 66 HC Dual Glass 605-630W N-type PV modules with JinkoSolar's HOT 3.0 technology offer better reliability and efficiency.
