This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs and more, all in one place to discuss the landscape of ...

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded ...

Argentina's electrochemical energy storage market is in its early stages but is poised for rapid growth, driven primarily by lithium-ion battery systems. The market is fueled by the...

Argentina's Energy Secretariat has issued a pivotal international call for proposals aimed at integrating 500 megawatts (MW) of battery energy storage systems (BESS) within the ...

Argentina's main renewable energy association will formally incorporate energy storage into its name, reflecting the rapid growth of battery systems. Its president says the upcoming AlmaSADI ...

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical ...

Argentina has taken a decisive step toward modernizing its power infrastructure, drawing international attention with its first large-scale battery energy storage tender.

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

Argentina has successfully concluded its first battery energy storage tender, awarding 667 MW of capacity -

Argentina on energy storage systems

around 30% more than the originally planned 500 MW - due to strong industry ...
