---

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Our BESS energy storage systems and photovoltaic foldable container solutions are engineered for reliability, safety, and efficient deployment. All systems include comprehensive monitoring and ...

Our goal is to provide electricity that is stable, reliable, and cost-effective, resulting in increased social and economic value. We provide end-to-end solutions, covering hardware, software (BMS+EMS), ...

Powerful Integrated Solution: Combines 215kWh of high-voltage battery capacity with a matched 120kW PCS for high-performance C& I storage. High-Efficiency Conversion: System efficiency exceeds 90% ...

Our Energy Storage Container is designed to optimize energy use, ensuring that you have the power you need when you need it, As a manufacturer, we take pride in our state-of-the-art factory that ...

Whether you're managing a solar farm, wind power plant, or industrial microgrid, understanding quality requirements ensures safety, efficiency, and long-term ROI. This guide breaks down critical ...

To significantly contribute to sustainable development through provision of products that will increase our customer's operation efficiency and ensure 100% customer retention. A leader across industries, we ...

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...
