What does BPI do?

BPI delivers turn-key energy systems that diversify what properties produce. BPI is a full-service energy contractor that equips properties with integrated roofing and solar, energy storage, carport solar, EV chargers, and general contracting services. BPI drives significant increases in net operating income, property value and energy savings.

Is BPI a good investment?

BPI has been a pleasure to work. They helped us navigate the complexities of tax credit opportunities and designed tailored solar PV systems at several multifamily properties in California. We were seeking to maximize energy efficiency and advance our financial objectives and using BPI is a valuable investment to our properties.

Why is BPI a preferred Gestamp EPC contractor?

The evolution of our California wineries to renewable energy extends a long-held family commitment to stewardship of our lands and our irreplaceable terroir. BPI is a preferred Gestamp EPC contractor because of their constant quality, reliability, and performance. It is further easy and pleasure working with the BPI team.
