-----  
Which states have the lowest electricity rates?

States with hydroelectric power (Idaho, Washington) enjoy the lowest rates, while island states like Hawaii pay a premium due to fuel imports. Businesses pay less per kWh because they use power in larger, more predictable quantities. The gap between residential and commercial rates averages 22% nationally.

How much does electricity cost per kWh?

The average residential electricity rate in the U.S. is 17.98 cents per kilowatt-hour (kWh). The January Choose Energy Electricity Rates Report shows you the cost of electricity per kWh by state based on the latest electricity prices from the U.S. Energy Information Administration (EIA).
