This project aims to implement a battery energy storage system (BESS) for EPBIH, aimed at enhancing the decarbonisation of the energy sector in Bosnia and Herzegovina.

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Bosnia and Herzegovina is set to have its first battery energy storage systems installed in the transmission network, which will provide auxiliary services.

Licensing and feasibility studies are already underway - the goal is to create a modern, resilient and green energy infrastructure. This is not only a technological development, but a strategic ...

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Bosnia and Herzegovina with our comprehensive ...

The government of Bosnia and Herzegovina has recognized the importance of transitioning to a more sustainable energy system and has set ambitious targets for the development of renewable energy.

The portable battery market in Bosnia and Herzegovina is growing due to the increasing use of mobile devices, laptops, and other portable electronics. Portable batteries provide convenient and reliable ...
