This program, originally created in 2007, offers significant tax exemptions to promote the national production of solar panels, aiming to reduce costs and encourage the adoption of solar energy.

Brazil imposes import tariffs on solar panels from Jan 1, 2024. Explore the impact on imports, industry growth, and the broader tax reform.

Under the new tax framework, this burden tends to increase, especially for asset leasing operations (such as solar plant leasing contracts), with estimated rates reaching 10.6%--even after ...

Brazil's photovoltaic sector finds itself caught between two tectonic policy shifts since December 2024. The double whammy of China's export VAT rebate reduction and Brazil's import tariff hike has ...

Direct tax incentives, such as the exemption of ICMS on solar energy in several states, and indirect incentives, such as the exemption of PIS/COFINS on generation equipment, have contributed to ...

The intention of the benefit is to foster the local industry of solar panels in Brazil and incentivize green energy consumption. The benefits provided by Decree 11,456/2023 are effective ...

In order to encourage renewable energy growth for small and medium scale initiatives and create economic viability for projects in Brazil, regulatory and tax incentives have been offered since ...

SAO PAULO, Dec 12 (Reuters) - The Brazilian government approved on Tuesday measures to raise import taxes on photovoltaic modules and wind turbines, in a move that should give a boost to...

This guide breaks down the key federal and state-level tax incentives available to solar module manufacturers in Brazil. Understanding these mechanisms--specifically IPI, PIS/COFINS, ...

Brazil photovoltaic panel tax rebate policy

The increase in the import tax on photovoltaic solar panels, announced by Brazil in 2023, puts at risk the installation of 18 GW of solar plants, responsible for 540 thousand green jobs.
