JGX1412 is an Angle Punching, Marking and Cutting machine for Angles up to 140*140*12mm. This machine is mainly used for processing holes on angles. The positioning, feeding of the machine are ...

Central to the functionality of the fully automated photovoltaic bracket production line are our powerful three-in-one decoiler straightener feeder machines, seamlessly integrated with a punching press and ...

The solar panel bracket is made of U-shaped steel or C-shaped steel made of zinc aluminum magnesium material and supports connecting accessories. It can be easily transported and ...

Precision CNC machining for solar panel brackets. Aluminum and steel mounting brackets with ± 0.010 in tolerance and ISO 9001 certification.

This machine is mainly used for processing holes on angles. The positioning, feeding of the machine are all driven by servo motors. It adopts Rack and Gear driving feeding by CNC carriage, high efficiency, ...

CNC angle punching line processing demonstration, used for processing photovoltaic bracket lock buckle, high efficiency and strong stability, click on our we...

High quality pv solar bracket punching and cutting machine, Single cutting multiple times, large daily production capacity, higher efficiency than conventional automatic aluminum cutting machine and ...

This line is fully automatic equipment for punching, marking, shearing of the angle line, which used widely in telecommunications angel steel tower industry, electric power fittings, warehouse rack, ...

Introducing--the JUGAO fully automated CNC molding machine, a one-stop solution to PV bracket manufacturing problems! We deeply understand your pain points. The JUGAO molding ...
