Should you sell solar panels?

Solar panel sales have grown significantly in recent years due to the increase in public awareness of the environmental and economic benefits of solar energy. If you are selling solar panels, there are a few things you need to keep in mind to be successful:

What happens if a seller owns a solar panel?

If the solar panels are owned outright by the seller For an owner who owns the solar panels outright, they benefit from free electricity generated from the panels and any surplus electricity can be sold back to the electricity grid under a feed in tariff system (FITs).

Can a new homeowner sell solar panels?

Some lenders allow the new homeowner to apply for and assume the loan. Check with your lender to see what your options are. This is probably the trickiest arrangement. Because you don't own the solar panels in this situation, you can't simply sell them to the next owner.

When buying a property with solar panels?

When purchasing a property which has solar panels installed, a buyer's Solicitor will check whether the solar panels are owned by the seller or if they are leased to them by a third party who owns them. If the solar panels are leased to the seller
