---

We design and build BESS containers with full engineering sign-off. We supply and install solar plants, inverter, and battery storage systems from 50kW to 2MW, specializing in BESS containerized solutions.

Mobile solar containers enable total off-grid operation, providing power in locations with no utility grid or where grid access is unreliable. This is essential for rural development ...

Traditionally the term &quot;hybrid&quot; referred to two generation sources such as wind and solar, but in the solar world, the term refers to a system that uses a combination of solar and ...

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Clean Globe Energy Corporation is a vertically integrated energy corporation, which is uniquely comprehensive, organic and holistic. Load Shedding getting you down? Put the power back in your ...

Explore our comprehensive large-scale photovoltaic solutions including utility-scale power plants, custom folding solar containers, advanced inverters, and energy storage systems.

Containerised solar photovoltaic cell systems with battery storage will be rolled out to some towns in a pilot project in the Western Cape to reduce the effects of loadshedding. We provide reliable, rapid ...

Using an off-grid solar system means avoiding power outages, reducing electricity costs, easing installation in homes, presenting an alternative power source for rural areas, and keeping the ...

At Cape Solar, we go beyond installations by offering comprehensive maintenance services to keep your solar system performing at its peak. With a focus on quality, sustainability, and customer satisfaction, ...
