---

French group Qair has begun construction on two hybrid solar plants in N'Djamena totalling 30 MWp with battery storage, under a 20-year BOOT contract with the Chadian government.

The Chad Energy Access Enhancement Project (PAAET), financed to the tune of nearly \$295 million, and part of the Mission 300 initiative, aims to increase the rate of access to electricity from 6% in ...

Qair has launched construction of a second hybrid solar power plant in Lamadji-Achawail, a district in the Chadian capital, N'Djamena. The project aims to address the country's chronic power supply ...

The water company of Chad (STE) will soon have a photovoltaic solar power plant. The installation is being carried out by Aboussimbil, a Chadian company specializing in general trade and ...

I would like to express our sincere gratitude to the Chadian government for its ongoing support and forward-looking commitment to renewable energy.

It stands as Chad's first utility-scale solar power plant, its first Independent Power Producer (IPP) under a Public-Private Partnership (PPP) model, and a flagship project of the African ...

The project was initiated in March 2020 following the signing of an agreement between the government of the Central African Republic and Abou Simbil Company. The installation consists ...

Chad has one of the lowest electricity access rates in the world, standing at 11% in 2022. The target installations are expected to increase the access rate to 60% nationwide and to up to 90% ...

It is reported that the project is located about 5 kilometers south of the Chadian capital N'Djamena. The project content is to build a 30 MW photovoltaic power station and a 20 MWh photovoltaic power ...
