What is solar sales?

Solar sales, in simple terms, is the process of selling solar energy systems to businesses or consumers. The solar industry is rapidly expanding, and solar sales professionals must stay updated with the latest trends and tactics to succeed.

What are the steps involved in solar sales?

The steps involved in solar sales are as follows: - A free consultation is provided to understand your needs and goals. - A sales proposal is prepared based on your needs and goals after the consultation. - A purchase agreement will be made if you are interested in purchasing solar systems.

How do I start a solar sales business?

To start a solar sales business, research the right type of solar system for your business. You can choose from a solar energy kit, solar-plus energy kit, or solar panel system. Each type of solar energy kit offers unique features and benefits.

What can a solar sales professional do?

However, some common career paths for solar sales professionals include sales, marketing, and project management. In addition, depending on your skills and experience, you can work in various industries, such as energy, real estate, architecture, engineering, home improvement, or construction.
