Will EV Growth reshape the global automotive industry?

EV growth over the next decade could reshape the global automotive industry. Nio's two newer brands are pushing deliveries higher, but its margins are also rising. Lucid's production ramp finally accelerated during the fourth quarter, but financial challenges remain. 2025 wasn't an easy year for investors within the electric vehicle (EV) industry.

How will the EV mandate help the auto industry?

Another \$3 billion from the Strategic Response Fund and up to \$100 million from the Regional Tariff Response initiative will go toward helping the auto sector diversify to other markets outside of the U.S. and grow. The EV mandate would be the latest environmental policy from the Trudeau era that Carney is dropping.

Why are electric cars becoming more popular in the world?

Global electric vehicle adoption is expected to rapidly grow over the next decade. QuantumScape's solid-state batteries promise faster charging, better range, at a lower cost. Italian luxury carmaker Ferrari has durable competitive advantages that drive its profitability higher. Electric vehicles (EVs) are expanding across the globe.

Will Canada's Electric Vehicle mandate be repealed?

Prime Minister Mark Carney is repealing Canada's electric vehicle mandate that set a target that all new vehicles in Canada must be electric in a decade, scrapping another Trudeau-era environmental policy.
