OverviewGovernment incentivesCharging infrastructureSalesExternal linksThe adoption of plug-in electric vehicles in the Netherlands is actively supported by the Dutch government through the exemption of the registration fee and road taxes. These purchase incentives have been adjusted over time. Considering the potential of plug-in electric vehicles in the country due to its relative small size and geography, the Dutch government set a target of 15,000 to 20,000 electric vehicles with three or more whe...

I've spent the past few days watching these pint-sized EVs navigate Amsterdam's challenging urban landscape, and I'll admit something -- I'm converted.

Electric vehicles evs amsterdam
