How many electric cars are there in Laos?

In 2022, the number of electric vehicles in use was recorded at 3,201, comprising 1,428 cars and 1,773 motorcycles. There are currently more than 20 charging stations in Laos and 18 dealerships have expressed interest in importing electric vehicles for sale across the country.

How many electric vehicles are there in Laos in 2023?

The surge in electric vehicle (EV) adoption in Laos has seen remarkable growth in 2023, Laos experienced growth in electric vehicle (EV) sales, totaling 4,631 units, which included 2,592 cars and 2,039 motorbikes.

Does Laos have an EV market?

Burgeoning EV Market Growth: In 2023, Laos experienced substantial expansion in its EV market, marked by the sale of 4,631 EVs, indicating an increasing inclination towards sustainable transportation options. Nonetheless, the uptick in EV usage is hindered by inadequate infrastructure, exemplified by Laos' possession of merely 41 charging stations.

Why is Lao promoting electric vehicles?

Despite infrastructure challenges, the Lao government remains committed to promote electric vehicles to alleviate the economic strain of importing petroleum. The Ministry of Industry and Commerce is actively devising plans to handle expired batteries, which are vital for the eco-friendly disposal of electric vehicle components.

The Lao Government has set a goal for electric vehicles to make up at least 1% of the total number of vehicles in society and reach at least 30% by 2030.
