The MIT-GE Vernova Climate and Energy Alliance, a five-year collaboration between MIT and GE Vernova, aims to accelerate the energy transition and scale new ...

BESS facilities are a specific type of energy storage system that store energy using batteries. Considerations for zoning must consider their intended use, preferred location and size.

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on ...

The City of Ottawa's Agriculture and Rural Affairs Committee approved the changes for Battery Energy Storage Systems (BESS), set to guide the land use policy direction for building battery...

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed ...

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the ...

MIT researchers developed a new fabrication method that could enable them to stack multiple active components, like transistors and memory units, on top of an existing ...

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to

Energy storage policy ottawa

advancing critical technologies amidst a changing energy ...

Developers looking to build new BESS facilities in Canada's capital will have to adhere to stricter regulations, following the approval of amendments to the city's planning and zoning laws by ...

This Amendment responds to the policy direction set out in Section 3.8.1 of the 2024 Provincial Planning Statement which directs planning authorities to provide opportunities for the development of energy ...
