What is the Ecoflow River Pro Extra Battery?

The Ecoflow River Pro Extra Battery is an additional battery that connects to your EcoFlow RIVER Pro to double its efficiency. It is compact and portable, and can double your capacity from 720Wh to 1440Wh. Extend the lifespan of your EcoFlow RIVER Pro and never be caught in the dark with this extra battery. It can power up to 1800W devices with X-Boost.

Can I connect a river pro extra battery to a power station?

You can only connect one EcoFlow RIVER Pro Extra Battery to one EcoFlow RIVER Pro power station. The RIVER Pro Extra Battery is not designed for use with any other power stations. If you wish to purchase an Extra Battery for the RIVER, please purchase the RIVER Extra Battery (sold separately at the EcoFlow Online Store).

Does ecoflow River 2 work with high wattage devices?

EcoFlow River 2 batteries can power high wattage devices up to 1600W by utilizing the company's X-Boost technology. However, not all high-wattage devices are compatible with this feature.

How do I charge the river 3 plus extra battery?

Robust & Reliable: IP65 waterproof rating protects against water splashes, making it perfect for outdoor use. Designed to withstand extreme heat with a UL 94V-0-rated casing and has been rigorously drop tested up to 3.3 ft without damaging the battery. **3 Charging Methods:** Charge the RIVER 3 Plus Extra Battery directly using its built-in USB-C port.

Double your runtime with the RIVER Extra Battery. Easily attaches to your RIVER for more capacity, making it perfect for camping, travel, and emergencies.

Double your RIVER Pro's capacity with this extra battery--ideal for extended outdoor adventures, emergencies, and off-grid living.

Add extra batteries to your DELTA or RIVER power station to double capacity, boost runtime, and keep essential devices powered longer.
