What is the business case for Bess in Italy?

Revenue Streams for BESS: The business case for BESS in Italy is underpinned by four main revenue streams: wholesale trading, the Ancillary Services Market (MSD), the Capacity Market (MC), and the new energy storage subsidy scheme (MACSE).

Is Bess a good investment in northern Italy?

While Northern Italy currently has the largest installed BESS capacity in the country, a build-out of RES in the South is increasing energy price volatility, creating a more compelling investment case for BESS in this region.

How big is Bess in Italy?

BESS capacity development Total BESS installations in Italy now exceed 6 GW / 14 GWh, but this is mostly behind-the-meter storage co-located with rooftop solar in the North zone. Terna's plans aim for over 70 GWh by 2030 to achieve Italy's NECP RES targets -- a fivefold energy capacity increase (Chart 2).

This strategic investment, featuring a substantial capacity of 200 MW of power combined with 100 MWh of energy storage, represents a major step forward in creating a more flexible, reliable, and ...

With Italy's industrial electricity prices soaring 38% since 2021, manufacturers demand low-cost BESS solutions to slash energy bills. But how do you pinpoint the truly cost-effective players in this crowded ...

Italy's power market is zonally priced. Each region reflects distinct grid constraints and supply-demand balances, making location a key driver of revenue potential.

This article sets out current key trends shaping BESS value in Italy, from renewables rollout and arbitrage value to historical asset performance and the upcoming MACSE auctions.

Italy's BESS market is booming, with prices expected to fall from EUR520/kWh (2023) to EUR425/kWh by 2025. Why? Two factors dominate: Chinese lithium-ion oversupply and local tax credits. Chinese ...
