---

Finland's largest battery energy storage system (BESS) to date will need to cope with "especially challenging" operating conditions and stringent and evolving grid code requirements.

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage system ...

You know, when people talk about European energy storage, Germany and Sweden usually steal the spotlight. But here's the thing - Finland's quietly been building a world-class battery ecosystem that's ...

The energy storage facility delivered by Merus Power to Lappeenranta, Finland, has been completed and put into market use on 15 May 2025. The energy storage facility is owned by a ...

With an installed capacity of 30 MW / 36 MWh, the project marks a major milestone and will play a vital role in strengthening Finland's evolving renewable energy infrastructure. Designed to store and ...

Battery energy storage systems are currently the only utility-scale energy storages used to store electrical energy in Finland. BESSs are suitable for providing FCR and FFR services.

Hitachi Energy will supply Finland's largest 125MW battery storage system for Alpiq in Haapajärvi, scheduled for mid-2027, to bolster grid stability and support the nation's energy transition.

Industry insiders will note the capability of the 70-megawatt battery system, which will enter operational status by the latter half of next year. This facility promises to store energy for up to ...

Sungrow's PowerTitan is a liquid-cooled BESS, designed for utility-scale applications. The battery system delivers extremely high reliability and efficiency under challenging weather ...
