-----

In 1892, Frank Shuman was granted a patent for his invention of wired safety glass. Additional patents were issued relating to the process of making wire glass and machines for making wire glass. In 1914 Shuman invented a process for making laminated safety glass, called safety glass, and manufactured by the Safety Glass Company. In 1916 he patented a "Danger Signal" for railroad crossings, as well as the use of liquid oxygen or liquid air to propel a submarine.

The world's first solar power station was built before World War One, created by a man with a vision for cleaner air. The early 1900s was an age of coal and iron.

A complete timeline that shows the astonishing development of solar energy technology since the 1800s!

Shuman built the world's first solar thermal power station in Maadi, Egypt (1912-1913). Shuman's plant used semi circle shaped troughs to power a 60-70 horsepower engine that pumped 6,000 gallons of ...

Solar power was first discovered by French physicist Edmond Becquerel in 1839 at the young age of 19. At the time, Becquerel was experimenting in his father's lab when he observed the photovoltaic ...

Inspired by this, American engineer and inventor Frank Shuman commissioned the first large-scale solar power generator in Maadi, near Cairo, in 1913. Schuman dreamt of a completely solar powered ...

Shuman built the world's first solar thermal power station in Maadi, Egypt (1912-1913). Shuman's plant used semicircle shaped troughs to power a 60-70 horsepower engine that pumped ...

Engineer Frank Shuman built the world's first solar thermal power station in Maadi, Egypt (1912-1913), using semi circle-shaped troughs to power a 60-70. In 1954, Daryl Chapin, Calvin Fuller, ...

In 1973, Elliot Berman founded Solar Power Corporation, a subsidiary of Exxon, and made huge strides in the cost of solar cell production. After 1973, oil companies used the extra profits to ...

# Foreigners invented solar power station

The decision to build the world's first solar power plant in Egypt, in the locality of Maadi, was no coincidence. The country, blessed with sunshine for most of the year, provided the ideal conditions to ...
