What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Why should you choose genset containers?

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package, we ensure excellent reliability for your power and heat generation needs. Easy to install and disassemble, convenient for maintenance and inspection.

Our containerized generator enclosures offer unmatched flexibility, durability, and customization options, making them the ideal solution for housing and protecting your valuable generator equipment.

SEA BOX"s selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

Our generator enclosures are known for their supreme quality, appearance, and durability. We custom build to our customers specifications up to 4MW+. We specialize in both diesel and natural gas ...

We design and build container generator units, shipping container power units, and modular generator housing
