As GoodWe Technologies marks its 15th anniversary, founder and chairman Daniel Huang highlights the company's bold vision: to build a new type of power system grounded in solar, ...

New three phase ESA all in one system integrates solar, storage and energy management in a single modular solution. Designed for easy installation and flexible expansion up to 108 kWh of ...

Chinese inverter and energy storage manufacturer GoodWe has launched a new generation of its ESA series residential all-in-one energy storage solution.

GoodWe has been developing solar inverters since 2010 but has evolved beyond string inverters to a full energy-ecosystem player, offering building-integrated photovoltaics (BIPV), heat ...

Following the strong market response to its single-phase ESA Series, GoodWe today announced the launch of its new three-phase All-in-One solution designed for residential and small ...

For over a decade, GoodWe has stood for reliable and pioneering technologies in the field of photovoltaics and energy storage. With a wide range of storage systems, GoodWe offers solutions ...

GoodWe's core competitiveness in source-grid-load-storage intelligent solutions for industrial and commercial sectors lies in the deep integration of AI in PV-storage, virtual power plant ...

The Smart Energy Council is pleased to announce that GoodWe, a global leader in solar inverter and energy storage technology, has joined the organisation as an Executive Member, further ...

The GoodWe SBP series is the world's first AC-coupled battery storage retrofit solution with UPS function for single-phase and three-phase systems. It can effectively upgrade any existing string ...

GoodWe the first in photovoltaic energy storage

In the first quarter of 2025, GoodWe ranked first in the domestic household photovoltaic inverter market, with a substantial increase in our market share compared to 2024.
