Guojiaba Solar Power Generation

Shanghai Electric Power Generation Engineering Company is one of the core businesses of Shanghai Electric Group, a large equipment manufacturing conglomerate in China.

Designed in the shape of a galloping horse, it earned a Guinness World Record for the largest image made with solar panels. It will generate about 2 billion kilowatt-hours of electricity each ...

Situated on the southeastern edge of the Taklamakan Desert, the solar panels, standing over two meters tall, serve a dual purpose. Besides generating power, they act as windbreaks, ...

Construction of the world"s largest wind power and photovoltaic base project developed and built in the desert and Gobi areas started in Ordos, North China"s Inner Mongolia Autonomous ...

Primarily focusing on large-scale wind and solar power development with a total installed capacity of 13 million kW, the project, the country"s first in response to the government"s ambitions to ...

Solutions Large-scale Power Plant Solutions Distributed Commercial Solutions Household PV Solutions Carbon Free Power Plant BESS Solutions Global Project References Sustainability Upholding Our ...

As part of this initiative, it has now converted a former coal mining site into its largest single-capacity solar power plant.

A solar power project in the Gobi Desert has moved the needle on the size and scope of global photovoltaic installations, aided by innovation in equipment and construction.

Upon completion, the project is expected to generate 1.78 billion kilowatt-hours of power annually, enough to meet the needs of approximately 2.67 million urban residents in China.
