Compared with metal, the very high thermal resistance and insulation levels of INTERTEC's composite GRP construction materials means that housings can be configured to cope with temperature extremes.

This article, combining KDST's technological R& D and practical cases, analyzes the core challenges of high-temperature environments for electrical control cabinets and details KDST's customized high ...

Secure network and control infrastructures with high-level availability ensure you can lay the foundation for reliable tunnel operation. We support you with high-performance products for fiber optics, copper, ...

Explore the top 7 electrical cabinet manufacturers in Germany, including Eabel and Stareco GmbH, known for innovation, quality, and industry-specific solutions.

Features contains power and control panels is a stand-alone construction, designed to provide a turnkey solution, ready for use equipped with control panel for motors, electrics, pneumatics and actuators ...

Battery Cabinet systems are designed and manufactured by Germarel in Germany and Europe. Germarel is a leading manufacturer of industrial-grade battery cabinet solutions engineered to safely ...

Delvalle offers a full range of fire resistant junction boxes, suitable for use within confined spaces and working environments such as road and rail & road tunnels.

Pfannenbergs concept for the thermal management of electrical enclosures for the 176 cross passages in the St. Gotthard Base Tunnel successfully withstands high alternating pressure ...

IRINOX designed highly customised modular cabinets containing STES systems to ensure safety in railway tunnels.

High-Temperature Type German Power Cabinet for Tunnels

In the new Gotthard Base Tunnel, at 57 kilometres the longest railway tunnel in the world, the requirements have been significantly increased once again. As passenger and goods trains pass ...
