In 2023, Hebei Huidun Metal Products Co., Ltd. was established in Yongnian Town, Handan City, mainly producing C-shaped steel and U-shaped steel for photovoltaic brackets.

Hot-Dip Galvanized Steel PV mounting structure designed and manufactured by HDsolar, adapt to the specific conditions of each project (terrain, calculation standard, climate conditions, etc.) ...

When it comes to building durable, reliable, and efficient solar panel structures, hot dip galvanized components are the gold standard. Whether you need GI square pipes, steel base plates, ...

Hot-Dip Galvanized Steel PV mounting structure designed and manufactured by HDsolar, adapt to the specific conditions of each project (terrain, calculation standard, climate conditions, etc.)

Our brackets are made of high-quality hot-dip galvanized steel, which has strong corrosion resistance and can maintain long-term stability in harsh weather and environment, especially suitable for humid, ...

With years of comprehensive experience and innovative ideas, we provide high quality and cost-effective Piling Solar Bracket with Double Poles, Ballasted Solar Racking, Carport Mounting System for the ...

Made of aluminum alloy, hot-dip galvanized steel or stainless steel, wind and snow resistant, it has ground-mounted, rooftop-mounted and floating types, and is key to ensuring system stability.

Solar Mounting structure is made by galvanized steel, anodized aluminum alloy and stainless steel, which featured with lightweight, high strength and recyclability.

To enhance their longevity and resistance to corrosion, our brackets undergo advanced surface treatment processes, including hot-dip galvanization and a galvanized aluminum-magnesium coating.

Hot-dip galvanized solar bracket enterprise

Hot-dip galvanized photovoltaic (PV) mounting is a metal structural system designed to provide support for solar PV modules, with the steel surface treated against corrosion through the hot-dip galvanizing ...
