How much does a 20 foot container cost in India?

A 20-foot dry container in India typically costs INR1.6-INR2.0 lakh for new units and INR0.8-INR1.2 lakh for used units, depending on the condition, port, and supplier. Prices may vary slightly at major ports such as Nhava Sheva, Mundra, and Chennai due to local handling charges.

2. What is the price of a 40-foot container in India?

How much does a shipping container cost in India?

A new 40-foot dry container costs between INR2.0-INR2.5 lakh, while used containers range from INR1.2-INR1.8 lakh. For high-cube containers (9.5 ft tall), expect to pay around INR2.3-INR2.7 lakh (new) or INR1.5-INR2.1 lakh (used).

3. What factors affect shipping container costs in India?

Why should you buy a shipping container in India?

The rising volume of trade at India's main ports has led to a precipitous decline in container prices throughout the year. The market now has an excess of containers, which has caused prices to drop. As a result, now is an excellent opportunity to purchase or lease a shipping container in the country.

What types of shipping containers are available in India?

Many different kinds of shipping containers are available in India, including: Standard dry containers. The most common type of container is often used for ordinary Indian container shipping.
