-----

Met Group Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Hungarian Energy and Public Utility Regulatory Authority (MEKH) has added a requirement for battery storage capacity to accompany projects bidding in its newly-launched renewable energy tender.

The government is announcing a residential energy storage program with a budget of HUF 100 billion (EUR 261 million), the Minister heading the Prime Minister's Office said on ...

The system is designed to optimize energy usage through peak shaving and load shifting, helping to reduce electricity costs by managing demand effectively. It seamlessly integrates with ...

Kehua Tech has announced the signing of a supply contract with Hungarian storage solution provider THdG for a 12MWh project.

With extensive experience across Europe, the Americas, and emerging markets, GSL ENERGY supports residential self-consumption, peak shaving, backup power, and grid-support ...

This guide provides a decision-oriented analysis of Hungary's storage subsidy framework, technical requirements, and the optimal battery system architecture for long-term commercial success.

This article will analyze Hungary's unique energy storage demand and introduce high-capacity, robust solutions like the 215kWh Energy Storage System and the 125kW/261kWh LFP ...

From solar farms to emergency response, Pecs-manufactured mobile storage systems deliver adaptable power solutions. As renewable adoption accelerates, these technologies will play an even bigger role ...
