What is a Vertiv EnergyCore Battery Cabinet?

The Vertiv(TM) EnergyCore Lithium-Ion Battery Cabinet provides high power density in a compact design. It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30C and optimized for either 5- or 7-minute runtime.

How many lithium-ion battery cabinets do I Need?

Due to the density of the Vertiv EnergyCore design, only two lithium-ion battery cabinets are needed to support each 500kW Trinergy(TM) UPS core, versus the three cabinets that are required by most suppliers.

Why should you choose a high-density battery cabinet?

OPTIMIZE RUNTIME: Choose high-density battery cabinet for 5-min and 7-min End of Life runtimes, making critical loads resilient and uninterrupted. **HIGH PERFORMANCE BATTERIES:** Utilize Lithium-Ion modules tested for demanding data center backup and AI compute workloads.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

Introducing the Linkbasic 42U 800mm Deep Battery Cabinet, your ultimate solution for secure and efficient battery storage in data centers and IT environments. Designed for maximum performance ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

Introducing the Linkbasic 42U 800mm Deep Battery Cabinet, your ...

Inquire about 800mm deep data center battery cabinets for IoT base stations

While Vertiv was an early adopter of lithium-ion batteries for the data center, this marks the first offering with Vertiv's own battery management system. The cabinet is ready to use with most ...

Floor standing data cabinets are super secure, high quality and cost effective 19" racks. Doors and side panels are all lockable and removable thus providing all round access to the entire rack. The ...

"With our Vertiv EnergyCore battery cabinets, we are delivering exactly what our customers and our industry need - compact, high-density energy storage capable of operating safely ...

The robust design makes them suitable for use in IT departments and offices. The cabinets are available in various configurations and are supplied fully assembled. Each cabinet utilises a ventilated top and ...

Our team of experts can help you configure your cabinet solution based on your unique needs. You can purchase both batteries and cabinets in a single purchase order.

Rack cabinet with 800 mm width houses, organizes and secures standard rack equipment with extra side room for cabling and PDUs.

Cabinets used in the data center comply with the International Electrotechnical Commission (IEC) 60297-1 standard and provide stable installation space for servers, thereby ensuring the safe ...
