How much do solar panels cost in Rhode Island?

Solar panels cost a lot to install, but they can save tons of money over time by shrinking or eliminating your electricity bills. The average Rhode Island homeowner needs a 9.54 kW solar panel system to cover their electricity needs, which comes out to \$31,869 before incentives. Prices range from \$27,089 to \$36,649 before incentives.

Does solar pay off in Rhode Island?

Solar pays off in Rhode Island. That's why over 13,000 Rhode Island homeowners have used EnergySage to receive and compare quotes for solar installations. You can expect to earn back your initial solar investment through electricity savings in about 6.83 years, while most systems last at least 25 years.

How do I finance a solar panel system?

There are a few ways to finance your solar panel system so you don't have to provide all that money upfront. Cash purchase: You'll own the system and pay for it upfront. This provides the best long-term savings. Solar loan: Allows you to retain ownership of your system, while owing little to no money upfront.

Is there a free online solar panel calculator?

As such it is the only free online solar panel calculator that properly accounts for the effects of time of use billing on solar savings. Most online solar panel calculators just estimate annual usage and production, ignore this complexity and give inaccurate results.
