Can I open or dismantle a Legrand device?

Do not open, dismantle, alter or modify the device except where specifically required to do so by the instructions. All Legrand products must be opened and repaired exclusively by personnel trained and approved by Legrand. Any unauthorised opening or repair completely cancels all liabilities and the rights to replacement and guarantees.

Can a Legrand product be opened or repaired?

All Legrand products must be opened and repaired exclusively by personnel trained and approved by Legrand. Any unauthorised opening or repair completely cancels all liabilities and the rights to replacement and guarantees. Use only Legrand brand accessories.

What is a battery cabinet & how does it work?

The battery cabinet is designed for a variety of UPS systems, and it provides extended runtime with a 36VDC/72VDC external connection. Additional parallel-connected battery cabinet provide the UPS with a longer extended runtime operation. Only skilled technicians can carry out ordinary maintenance procedures.

Can a battery cabinet be repaired?

No part of the battery cabinet can be repaired by the user. Extraordinary maintenance operations must be carried out by LEGRAND Technical Support Service personnel. This product should be installed in compliance with installation rules, preferably by a qualified electrician. Incorrect installation and use can lead to risk of electric shock or fire.
