Solar panels and batteries will account for more than 80 percent of new power capacity installed in the U.S. this year, officials say. Both technologies are set for record growth, helping to ...

Calpine's billion-dollar Nova Power Bank, built on the site of a failed gas-fired power plant, will be able to power about 680,000 homes for up to four hours when charged. It could help ...

Battery storage. In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record ...

The U.S. utility-scale energy storage market led the way, adding 1.5 GW/4 GWh of capacity in Q1 2025 for a 57% increase over the ...

In a record-breaking start to the year, developers installed over two gigawatts of new storage capacity in Q1 alone despite 21 GWh of battery energy storage factories being cancelled in ...

One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

The U.S. utility-scale energy storage market led the way, adding 1.5 GW/4 GWh of capacity in Q1 2025 for a 57% increase over the same period last year. The residential storage ...

Its business scope includes: research and development of carbon emission reduction, carbon conversion, carbon capture, and carbon sequestration technologies; energy storage ...

L.A. Mayor Karen Bass on Tuesday announced the completion of a major new solar and battery storage project. The sprawling field of solar panels and batteries in the Mojave Desert is now ...

?Red Star Macalline Establishes Green Energy Technology Company! Including Energy Storage Technology

Macalline enters photovoltaic energy storage

Services, Battery Manufacturing, and Other Businesses?SMM has learned from ...

The US Energy Storage Monitor is offered quarterly in two versions - the executive summary and the full report. The executive summary is complimentary to member companies and ...
