---

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Foldable solar frames save space and simplify maintenance. Equipped with 120 N-type bifacial cells for efficient energy generation. The Mobile Solar PV Container is a portable, containerized solar power ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of ...

Discover the Foldable Solar Container offering lightweight, efficient, and portable renewable energy. Ideal for outdoor adventures, emergency backup, and remote work sites. Harness clean solar power ...

A Mobile Solar Container is a self-contained solar power unit housed within a transportable container. Designed for mobility, it offers rapid deployment of renewable energy solutions in remote or ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
