How do I find the best solar installer near me?

Follow these tips to hire the best installer near you: Look for installers who are members of the Solar Energy Industries Association (SEIA) and certified by the North American Board of Certified Energy Practitioners (NABCEP). Read their reviews on HomeGuide and Google. Get at least three in-person estimates to compare.

How do I find a good solar service provider?

We've found that Google, Yelp, and the Better Business Bureau are the best resources for reviews of solar providers. As with any service provider, use your best judgment when reading online reviews -- some can be overly negative or positive, depending on where you look.

How much do solar panels cost?

Residential solar panels cost \$3.00 to \$4.50 per watt, including installation. However, the cost of solar panels continues to decrease each year as solar energy becomes more popular. The cost to convert your house to solar power depends on the type of solar panels, inverter, and equipment, your location, your energy needs, and local labor rates.
