In June 2016, a solar farm in the Molodechno area with a capacity of 5.7-5.8 MW was launched - more than any of the previous ones, not only in Belarus, but also in Estonia, Lithuania, Latvia and Poland. In August of that same year, the Solar II farm was opened in Bragin District, more than three times its predecessor's capacity. In 2017, about 30 photovoltaic power plants with a total capacity of about 41 MW were used. In the same year, the largest photovoltaic farm in Rechytsa, 55 MW was put into operation...
