Discover Array Technologies" innovative patent for a versatile mounting system for photovoltaic modules, enhancing stability and ease of installation for power-generating devices.

WO2025208935 - ADJUSTABLE SOLAR BRACKET. A photovoltaic (PV) support structure is configured to support a PV array of PV panels. The PV support structure includes a ...

This represents the largest patent holding of all the solar racking manufacturers worldwide and protects the dominant solar innovations that enable the success of our business units.

This application claims priority to U.S. Provisional Patent Application No. 63/225,741, filed on Jul. 26, 2021, entitled "BRACKET ASSEMBLY FOR SOLAR PANELS," the entire disclosure of which...

Discover Klockner & Co SE"s innovative solar mounting bracket, patented for secure installation and enhanced stability in solar systems. Learn more about its unique design!

A mounting bracket for a solar panel foundation system is disclosed. The mounting bracket can include a top panel having a first side panel and a second side panel extending therefrom. A ...

In one aspect of the present disclosure, a solar module mounting bracket assembly is provided. The solar module mounting bracket assembly includes a rail configured to support a solar...

SOEASY"s patented solar mounting system offers adjustable, easy-to-install solar brackets. This innovative solar racking solution reduces costs for commercial and utility PV projects.

A first clamp supports a bottom surface of a solar panel frame and adjusts the height of the solar panel above the roof by moving the first clamp along a first fastener in a direction perpendicular to the roof.

In the solar world, that means a mounting innovation like a clamp or bracket can be protected--so the people

Patented solar bracket

who put in the work and expense to design and develop it can achieve the ...
