View detailed information about Pearl River Solar Park LLC, a solar farm in Mississippi--including its developer, capacity, location, and status .

PEARL RIVER, NY -- A solar panel array erected on state-owned land has been removed without ever generating a kilowatt, and town officials are shaking their heads ...

EDP subsidiaries have inaugurated Pearl River Solar in Mississippi and announced a 15-year PPA for a 150 MWac solar project in Illinois.

Pearl River Solar Park yields significantly in the form of payments to landowners, local spending, and annual community investment. Pearl River Solar Park is also compatible with other land uses and ...

The project features 400,000 monofacial and bifacial tracking photovoltaic panels, and is EDPR NA's official entry into Mississippi, the company said Wednesday.

EDPR NA uses photovoltaic (PV) solar cells. Photovoltaic solar cells have no moving parts and convert sunlight directly into electricity via the photoelectric effect.

The Pearl River Solar Park, developed and operated by EDP Renewables North America (EDPR NA), is Mississippi's largest solar energy project to date. It delivers 210 MWp (175 MW AC) of photovoltaic ...

Located in the northwest corner of the county, Pearl River has an installed capacity of 210 MWp (175 MWac), producing enough power to meet the energy needs of more than 27,000 average ...

EDP Renewables North America (EDPR NA) recently inaugurated the Pearl River Solar Park in Scott County, Mississippi, marking its entry into the state. This solar park boasts an installed ...
