An aerial drone photo taken on July 16, 2024 shows a solar thermal energy storage power station in Guazhou County, northwest China's Gansu Province.(Xinhua) ...

This overhead aerial view captures the vast array of heliostat mirrors surrounding the central receiver tower of a large concentrated solar thermal power plant.

China has switched on its first dual-tower solar-thermal power station, using concentrated heat to generate power even after sunset.

China has switched on a world-first solar thermal power station in the Gobi Desert that is said to be a cheaper and more efficient use of the technology with potential to be scaled up.

The power station is located in Guazhou County in Gansu Province, in northwestern China. Unlike most solar thermal plants that use a single tower, this facility features two towering ...

In the middle of the Gobi Desert in Hami, Northwest China's Xinjiang Uygur Autonomous Region, rows of large mirrors sparkle like diamonds under the dazzling sunlight, resembling a scene ...

In the windswept Gobi Desert near Hami, Xinjiang, something futuristic is rising... a 220m molten salt tower on the shores of Naomao Lake. Surrounded by 14,500 heliostats (basically sun ...

An overview of part of the site of a 450,000-kilowatt integrated solar, thermal, and storage project in the Gobi Desert in Bayingolin Mongolian Autonomous Prefecture, Xinjiang, China, on July 8,...

China has unveiled the world's first dual-tower solar thermal power station in the Gobi Desert, using 27,000 mirrors to generate renewable energy round the clock, a landmark in clean ...
