The lawsuit challenges whether the California Public Utilities Commission, or CPUC, broke the law in 2022 with a decision that damaged the state's once-thriving rooftop solar program.

The groups argue the utilities commission violated state law in 2022 when it cut the value of the credits that panel owners receive for sending their unused power to the electric grid by as much...

The study contributes to advancing scientific understanding of rooftop PV optimization strategies and offers actionable recommendations for policymakers, building designers, and PV ...

Discover how rooftop solar impacts consumer safety and public health with insights from EWG's environmental research. Learn more about this landmark decision.

Rooftop solar plays a huge role in that vision. But if AB 942 becomes law, it could discourage people from going solar, and even push some to disconnect their existing systems.

Researchers in Taiwan are proposing a market-based incentive scheme to help property owners to move from using their roofs for illegal dwellings to rooftop solar power generation.

The California Supreme Court on Thursday ordered a lower court to reconsider a state policy that reduced how much utilities have to pay homeowners with rooftop solar panels for the ...

Their incorporation into building roofs remains hampered by the inherent optical and thermal properties of commercial solar cells, as well as by esthetic, economic, and social constraints. ...

Did you know that rooftop solar photovoltaic panels are doing double duty these days? Beyond generating clean energy, they're becoming an unexpected ally in preventing illegal construction ...
