---

Namkoo installs a 30kW/40kWh off-grid home solar system in Sierra Leone, using lithium solar batteries and smart storage to deliver reliable power for residential living.

Despite the challenges from the corona outbreak PowerGen Renewable Energy, installed and commissioned the solar systems to power 6657 households in 2020 and 2021.

This milestone project, implemented by Off-Grid Power \* (funded by PIDG company, InfraCo Africa) aimed to provide first-time electricity to 6,657 households & businesses in Sierra Leone, making it ...

Acknowledging the challenges posed by costly grid expansion, the Government of Sierra Leone (GoSL) has identified off-grid solutions as a viable approach to meet the electricity demands of its rural ...

Scheduled for deployment by December 2025, this off-grid solar-storage solution will provide stable, efficient, and clean power to local mining operations, integrating seamlessly with existing photovoltaic ...

As part of the Rural Renewable Electrification Project (RREP), Off-Grid Power has successfully implemented Sierra Leone's largest off-grid energy project, providing green electricity to 6,657 rural ...

The system includes 30kW of high-efficiency solar panels, a substantial 40kWh lithium battery bank, and a 30kW hybrid inverter to manage power flow and ensure a stable, uninterrupted ...

Scheduled to be operational by the end of 2025, this project aims to resolve the mining site's power supply challenges through a smart, multi-energy complementary solution. The microgrid ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, ...
