We speak to one of its co-founders, Dr Avishek about the company's work and plans for the future. Dr Avishek Kumar co-founded VFlowTech, a Singapore-based company pioneering ...

Vanadium redox flow battery (VRFB) company VFlowTech has raised investment to scale up its manufacturing, extend its reach and enhance the digital capabilities of its tech.

VFlowTech, established in 2018 in Singapore, specializes in modular vanadium redox flow batteries for scalable, long-lasting energy storage. Their PowerCube system supports renewable energy ...

VFlowTech is a Singapore headquartered company focused on developing and manufacturing long duration energy storage systems specializing in vanadium redox flow batteries ...

Vflowtech, a Singapore-based innovator, is powering Jurong Island, an industrial hub, with its vanadium redox flow batteries (VRFBs). This project paves the way for a cleaner and more ...

Market Size & Growth Trajectory: The Singapore flow battery market is projected to reach approximately USD 250 million by 2025, with a CAGR of around 20% from 2023 to 2025, driven by...

VFlowTech, a cleantech company founded in 2018 in Singapore, develops and manufactures low-cost and efficient modular vanadium redox flow batteries for long-duration energy ...

Singapore-based startup VFlowTech is on a mission to power the green transition, having spent years developing a low-cost energy storage system. VFlow Tech has developed an innovative solution for ...

Singapore's VFlowTech has secured a substantial \$20.5M funding round to accelerate deployment of its vanadium redox flow batteries that aim to offer long-duration storage.

VFlowTech is a Singapore headquartered deep tech company pioneering vanadium redox flow battery

Singapore flow battery technology

(VRFB) systems for long-duration energy storage. Established in 2018, VFlowTech focuses on ...
