Following the construction of the micro-grid, the system was modelled post-installation using software developed by HOMER Energy.

Caterpillar is deploying a 750-kW microgrid on the island of Guam--a challenging deployment environment because of the island power grid and extreme weather phenomena. To ...

The neighborhood is situated on a micro-grid, with a large solar array, large lithium battery, and natural gas generator to power the 62 homes. Clean technologies have come a long way to make this possible.

in Thailand took the lead on a pilot project that brought a solar and hydro-powered microgrid to serve the energy needs of around fifty thousand people in the mountainous Mae Hong Son Province, keeping ...

The construction of highway microgrids is evolving into a new highway energy system that integrates "Source-Network-Load-Storage". This paper provides a comprehensive evaluation of expressway ...

Seven EPIC-funded microgrid projects funded in 2015 recently concluded their three-year implementation timelines. These seven projects demonstrated low-carbon-based microgrids for ...

As communities nationwide increasingly turn toward microgrid technology, it is critical to consider system design, development, and financing via federal funding sources to ensure a project's ...

The share of new energy in China's energy consumption structure is expanding, posing serious challenges to the national grid's stability and reliability.As a result, it is critical to construct ...

This white paper focuses on tools that support design, planning and operation of microgrids (or aggregations of microgrids) for multiple needs and stakeholders (e.g., utilities, developers, ...
