If your solar installation is not properly permitted, you may face fines, penalties, or even forced system removal. These legal battles can be time-consuming, costly, and highly stressful, making your solar ...

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

I'm sure it is a company selling solar power solutions, but it is very misleading, making it sound like something affiliated with PG& E or the PUC when it is not and I could see many people...

Genuine incentive programs and reputable solar energy contractors do exist. Before you accept an unsolicited offer, do some research on solar companies in your area.

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...
