ApTech Africa, established in South Sudan in 2011, specializes in delivering off-grid solar solutions and home energy systems tailored to meet the needs of underserved communities.

The 20MW solar facility is capable of supplying power to approximately 16,000 households in Juba, offering a significant reduction in energy prices and enhancing grid stability.

By integrating renewable energy into the national grid, it aligns with South Sudan's environmental sustainability goals while making electricity more affordable and accessible to the local ...

Credit: Ezra Group A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is ...

Sungate Solar offers reliable and sustainable solar solutions in South Sudan. Our innovative products and services provide access to clean energy, powering homes, businesses, and communities.

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to ...

From urban households to rural clinics, rooftop solar PV panels are lighting up South Sudan's future - one roof at a time. With falling costs and rising awareness, the sun might finally set on energy poverty.

Sudd Green Energy (SGE) is aims to revolutionize the way rural communities and individuals in South Sudan achieve energy independence through sustainable solar energy, solar hydro hybrid energy, ...

ApTech Africa, established in South Sudan in 2011, specializes in ...

South Sudan is endowed with high solar PV potential boasting more than 10 hours of daily sunshine -

South Sudan Energy Solar Power Generation for Home Use

approximately solar radiation of 5.5 - 6.0 Kwh/m² /day year-round.

South Sudan's rural electrification plans include large-scale solar thermal and small-scale solar photovoltaic power generation given its access to an average of more than 10 hours of ...
