---

Launched in September in the communities of Wintua and Lorlow, the micro-grid is Vanuatu's first-ever community-run power system: members of the communities own and manage it.

We provide cutting-edge energy storage systems that enable efficient power management and reliable energy supply for various scenarios including grid-tied systems, off-grid applications, ...

As a type of energy management system (EnMS), BEMS can help a building obtain key certifications like the U.S. National Energy Performance Rating System and ENERGY STAR Building ...

Explore solar, battery, generator, and off-grid solutions tailored for Vanuatu. Custom systems, expert support, and free consultations available now.

This project is aligned to the Government of Vanuatu's National Energy Road Map for increasing the energy access for rural communities in Vanuatu. The installed solar PV system is a stand-alone ...

Providing you with a comprehensive overview of your solar photovoltaic (PV) system's performance and efficiency. With real-time monitoring and data analysis, you can track your energy production, ...

In Vanuatu, grid power is one of the most expensive in the world. Our solar power systems offer a cost-effective alternative, significantly reducing your electricity expenses and providing a more affordable ...

We provide cutting-edge energy storage systems that enable efficient power management and reliable energy supply for various scenarios including grid-tied systems, off-grid applications, and backup ...

Highjoule's site energy solution is designed to deliver stable and reliable power for telecom base stations in off-grid or weak-grid areas. By combining solar, wind, battery storage, and diesel ...
