Does Kalmar support Victoria International Container Terminal?

Kalmar supports Victoria International Container Terminal with four automated straddle carriers. Kalmar supports Victoria International Container Terminal with four automated straddle carriers. Kalmar supports Victoria International Container Terminal with four automated straddle carriers.

Is Vict Australia's only fully automated container terminal?

VICT is Australia's only fully automated container terminal and is owned by International Container Terminal Services, Inc. The 35-hectare terminal has a design capacity of 1.5 million TEU and is the only terminal in Melbourne capable of handling the largest boxships.

Why did we invest in new hybrid carriers?

"These new hybrid carriers are part of our expansion plan, which will increase our capacity to 1.5 million TEUs annually. This investment demonstrates our commitment to customer focus, innovation, and sustainability, ensuring we can meet the growing demand for our services while minimizing our environmental impact."

Victoria International Container Terminal (VICT), ICTSI's operation at the Port of Melbourne, has purchased four new hybrid automatic container carriers (ACCs) from Kalmar.

The new carriers, scheduled for delivery in 2025, will each feature a 60t capacity for twinlift operations and Kalmar's latest hybrid technology with lithium-ion batteries for energy recovery.
