Explore our Climatic Chambers for precise testing of batteries and EV components under extreme temperature and humidity conditions.

What is a p500e energy storage system?The P500E has a modular design with a built-in STS and transformer. With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, ...

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and ...

Our solar battery cabinets are constructed using sheet metal known for its strength and durability. This ensures that the cabinets can withstand the rigors of various environmental conditions, including ...

Home About us Product News Contact us HUST VIET NAM JSC Headquater: D01-L07, Zone A - Duong Noi New Urban Area, Duong Noi Ward, Hanoi City, Vietnam Phone: (+84) 24 2239 ...

This cabinet-style energy storage battery is tailored for overseas commercial and industrial scenarios, from small workshops to data centers, combining robust safety, ultra-long durability, and all ...

This free-standing cabinet maintains precise temperature control with differences of less than 3°C between cells, enhancing battery consistency, extending lifespan, and enabling modular parallel ...

With their highly efficient refrigeration system and outstanding thermal insulation, ESPEC"s constant climate cabinets are ideal for use in laboratories and research facilities.

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...
