Who is wholesale solar warehouse?

Wholesale Solar Warehouse is family-owned and operated by Charles and Lori Bush in Richmond, VA. We believe in doing business the old fashioned way with honesty and integrity. We believe that solar should be affordable to all people not just to the wealthy. Wholesale Solar Warehouse is your trusted partner for all your DIY solar projects!

Where can I buy solar panels in bulk?

Buying in bulk by pallet or container lets you lock in better prices per watt, simplify logistics, and get equipment from trusted brands in one place. A1 SolarStore is a solar marketplace where you can buy wholesale solar panels in pallets or full container loads for residential and commercial projects.

Should you buy solar panels wholesale?

Buying solar panels wholesale significantly reduces the cost per watt compared to purchasing small batches at retail prices. Bulk orders also ensure you have enough inventory for ongoing projects, avoiding delays and last-minute substitutions.

What factors affect wholesale solar panel prices?

Wholesale solar panel prices depend on several factors that should be considered when planning purchases. The most important drivers are panel wattage and technology, with higher-power bifacial and all-black models typically costing more per module but often less per watt.
